OUR COOPERATION.**

Kloosterboer

BLG Coldstore

BREMERHAVEN – YOUR GATEWAY BETWEEN EUROPE AND THE WORLD.

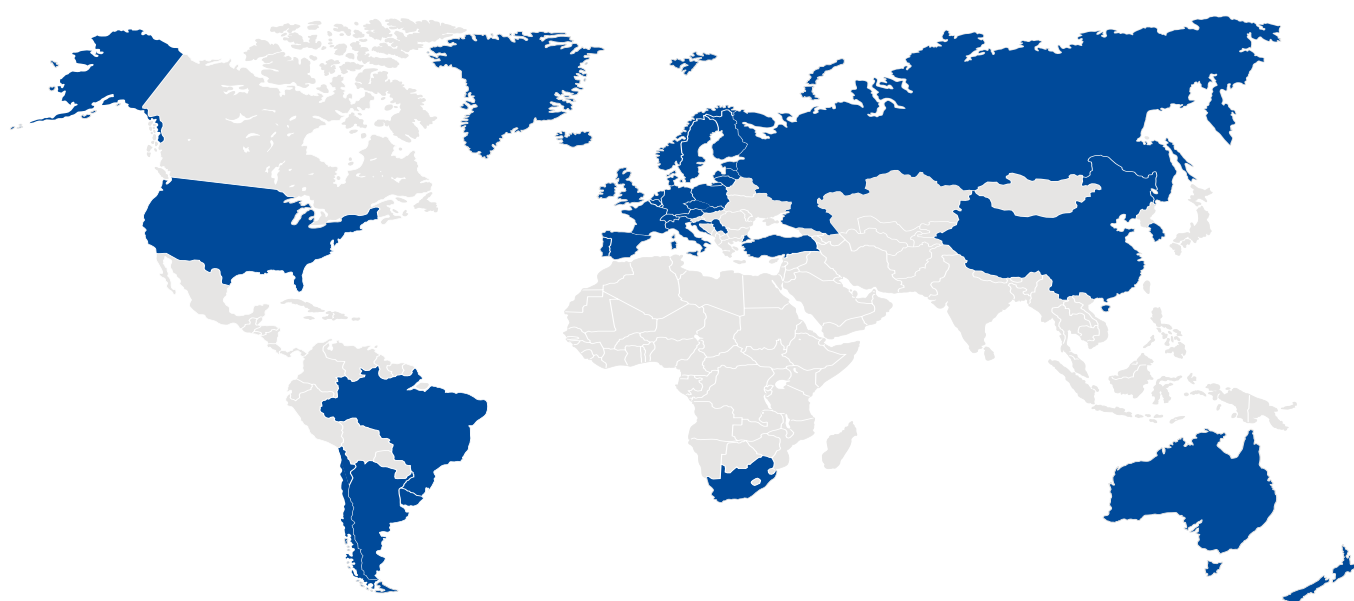

Your cold store in Bremerhaven ensures smooth, complete handling of deep-frozen and refrigerated products.

Frozen and refrigerated goods require special storage solutions. Whether you want to store foodstuffs, pet food, or nonfood – in our cold store, every product gets the conditions it needs. We take care of your temperature-controlled logistics. That means cargo handling, storage, picking, and distribution at the ideal temperature and in quality you can rely on from Kloosterboer BLG Coldstore. Our location benefits from its closeness to the veterinary and customs as well as official plant health inspection facilities.

- Interface between land and sea
- Close to major sales markets for temperature-controlled products
- Expertise of local logistics, retail, and food production companies
- Location in the free port and at the container terminal provides various advantages in international goods transport
- 30,000 pallet spaces

WE ACT AS PART OF YOUR NETWORK.

STRONG PARTNERSHIP

The leading position of the Kloosterboer Group in temperature-controlled logistics as well as the over 140-year experience of the BLG LOGISTICS GROUP come together in our cold store to provide excellent refrigeration and deep-freeze logistics worldwide. You can rely on the extensive network of the two competent partners.

WE DON'T GIVE YOUR PRODUCTS THE COLD SHOULDER.

You get the right services all along your supply chain.

OUR ACCREDITATIONS

Whether you deal with partners in the EU or third countries, our warehouse organization and equipment perfectly comply with your product requirements. Our cold store is accredited for:

- Intra-Community trade in meat and fish (DE-HB-01049-EG)
- Re-packing and labeling packed foods of animal origin (DE-HB-01049-EG)
- Storage of goods of animal origin from third countries that do not comply with EU requirements (DE-HB-II-1)
- Storage of organic produce in compliance with organic produce inspection directives (LACON: DE-ÖKO-003)
- Storage of animal by-products (DE 04 012 0010 03)

OUR VALUE-ADDED SERVICES FOR YOU.

We add value to your value chain.

IT Management

Our tailor-made IT solutions – inventory controlling, barcode and scanning technology – help ensure your products are transported without a hitch.

Quality and environmental management

You can rely on top-quality logistics from us; proven by our IFS and QS certifications and our integrated HACCP system. We are committed not only to constant quality improvement, but also to sustainability and environmental responsibility.

Technical Service

We use various warehouse technologies, including mobile and back-to-back rack systems. That enables us to optimally utilize our storage capacities and flexibly meet your requirements. The efficiency of our energy management is proven by ISO 50001 and ISO 50003 certification.

Project management

We take on all challenges: individual services or your entire logistics operations, support with process restructuring or establishment of a new location. Always perfectly matched to your needs.
